Find out more in this newsletter!

The Work Package 3

The result of the **Work Package 3 (WP3) - Difining a methodology for the entrepreneurial training of freelancers** of the project is a handbook for the creation of the freelance incubator model .The Handbook in now available on DIGIfreelancer website.

The Handbook is available in English, French, Greek, Italian, Polish, Spanish and accessible online or downloadable in PDF format.

Training seminar in Rome

In February, we met in Rome for 5 days of **Learning, Teaching, and Training Activities** that wew essential to take all project activities forward!

Hosted by **AdM**, we also participated in two interactive workshops on "**How emotional Intelligence could support your communication**" and "**Design Thinking**" .
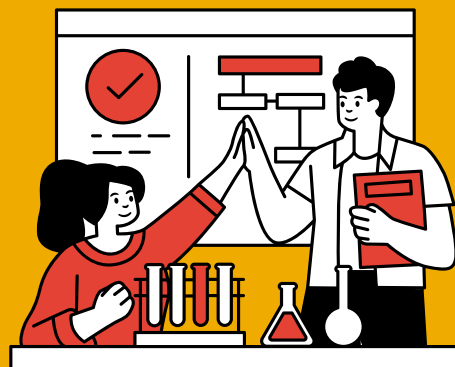

But we have more exciting news!

We also finalizing the other results of our project which will be soon available online:

- The digital incubator for freelancers

In fact, during these months, we continued to work on all these results both online and in person. Within the incubator there will be statistical data, research, content for training and self-training, curriculum for freelancers and "ancillary" services.

Visit our website

TThe project's website is now live and accessible in six languages: **English, French, Greek, Italian, Polish,** and **Spanish**. Within the site, you'll discover various sections including **Project, Partners, News,** and **Project results.**
